Patrick, Paul	FireEye, Inc.	Voting Member
Pumo, Beth	Kaiser Permanente	Voting Member
Santos, Omar	Cisco Systems	Chair
Tamagna-Darr, Lucas	Tenable, Inc	Member

5. Meeting Notes

Quorum was not achieved. Informational meeting only.

A few updates since our last working session:

- Eric Johnson has received approval to release the tool to convert CVRF 1.2 XML documents into CSAF 2.0 documents in GitHub.
- The schema feedback/review has been light so far. A reminder that the agreed deadline is August 28th, 2019. That is the same day as our monthly meeting in August.
- Please provide your feedback directly to the aforementioned GitHub issue(s).
 - CSAF 2.0 JSON schema draft review: Document Root
<https://github.com/oasis-tcs/csaf/issues/11>
 - CSAF 2.0 JSON schema draft review: Vulnerability
<https://github.com/oasis-tcs/csaf/issues/12>
 - CSAF 2.0 JSON schema draft review: Product Tree
<https://github.com/oasis-tcs/csaf/issues/13>
 - Your time and help are greatly appreciated.
- For those traveling to BlackHat and DEF CON and would like to meet. Please contact Omar and he should be able to find a meeting place in one of the hotels. He is co-leading the Red Team Village at DEF CON and may be able to find a conference room where we can briefly meet, if needed.

6. Next Meeting

Next Meeting will be a **monthly meeting** on Wednesday, August 28, 2019 at 1:00 PM US EDT
